

Our 1763 Experience

Our 1763 experience in July 2017

We wanted to take a minute, and give a brief summarization of our 1763 experience. We are a married couple of 11 years, and have been a D/s couple for the majority of those. We have never played anywhere in public ever. We are extremely discreet in our lifestyle, and we drove for over 4 hours to get to 1763. We were nervous the entire time, and all of the questions addressed on the FAQ page went through our minds. To say we were nervous would be the understatement of the year. When we arrived we paid our dues and entrance fees it totalled to \$60, but after 10 mins we were ready to leave. We had made a major snafu accidently. We had read the rules and put our cell phones away, however one had flipped upside down, and it was pointed out immediately. At that point we struck up a conversation with a DM who calmed us down tremendously. We had two of the absolute most intense scenes we have had in over 8 years. To put into perspective how welcome all lifestyles are we practice forced feminization, and it was completely welcomed. For anyone who has hesitations about 1763 try it and you will absolutely wish you had tried it sooner. We have already made our return plans.
